Nairobi, June 5<sup>th</sup>, 2019

As program manager of EU RLE project, in charge of Results 3 and 4 dedicated to the Judiciary, the Prosecution services and Law Enforcement agencies, and after 35 years of experience in International Operations with the UN, the EU and the NATO, I assume every single word of what's following:

Dan's international experience was invaluable to draft and deliver training courses for judges and prosecutors on extradition, mutual legal assistance and use of special investigation techniques for counter terrorism investigations and prosecutions in the Greater Horn of Africa.

As part of this training, Dan guided key stakeholders through the process of drafting their own national guides on mutual legal assistance and extradition and the application of these tools in practical exercises.

Dan also created a secure online platform, where practitioners across the region can now access these tools to advance cross-border investigations.

Dan's ability to engage stakeholders with energy and enthusiasm, ensured we met our key deliverable to create an operational and sustainable regional cooperation network for Djibouti, Ethiopia, Kenya, Somalia, Sudan and Uganda.

I strongly recommend Dan for any mission or any project related to these fields where he excelled every time he prepared trainings curricula or produced training material for my activities.
